

Aldehyde and Ketone Worksheet

1. Draw the structural diagrams for each of the following compounds:

- methanal
- 3-methyl-2-pentanone
- 3-methylcyclohexanone
- 2,4,6-trimethylheptanal
- 3-bromobutanal
- 2,3-diodocyclopentanone
- 3-methyl-2-pentanone
- 4-methyl-3-penten-2-one
- 2-pentanone
- 4-methylpentanal
- 2-butanal

2. Name each of the following compounds

2,5-dichlorocyclopentanone

4-methyl-2-pentanone

2-butanone

a. C_2H_6
